### Add MEC for Preventive Services

A Limited Benefit Medical plan is not a comprehensive major medical plan, nor is it intended to replace a major medical plan. From a benefit offering perspective, employers with part time and hourly employees find these benefits an effective way to attract and retain employees. Limited Medical plans can also supplement an ACA-compliant Minimum Essential Coverage plan by adding sickness and injury coverage to MEC's preventive services. OptiMed Limited Medical plans are considered excepted benefits and not ACA credible coverage.
